e-mail: [nikitakasinet@gmail.com](mailto:nikitakasinet@gmail.com)

web: [linkedin.com/in/nikitakasinet/](https://www.linkedin.com/in/nikitakasinet/)

github: [github.com/Dukenik/](https://github.com/Dukenik/)

**Objective:** Obtain a position of a Junior JavaScript Developer

## PORTFOLIO:

<https://dukenik.github.io/Portfolio/>

## Skills:

- Front-end Development
- Back-end Development
- JavaScript/TypeScript
- React/React Native
- Git

**Additional skills:**

- CSS
- HTML
- Vue
- SASS
- JQuery
- WordPress/Webflow

**Work Experience:**

I worked on a web application project that aimed to create a dashboard for monitoring website traffic in real-time. The project required a lot of dynamic content manipulation and real-time updates to ensure a smooth user experience. We built the application using technologies like React and Redux.

In my role as a junior front-end developer on the project, I worked closely with the senior developers to implement the user interface using React, write and maintain Redux store logic, and implement responsive design. I also worked on fixing bugs and ensuring the application was accessible to all users.

Technologies Used: React, Redux, Bootstrap.

As a junior developer, I was also introduced to new technologies and practices, such as Git version control, code reviews, and agile development methodologies.

Overall, the project was a great learning experience for me as a junior developer. It challenged me to work collaboratively with a team of experienced developers and exposed me to new technologies and development practices.

I am a quick learner and enjoy working in a team environment. I am comfortable with agile development methodologies and have experience collaborating with designers, developers, and project managers to deliver high-quality software on time.

### **Education:**

September 2020 — January 2021 - Specialist, IT Beetroot Academy, Sweden and Ukraine

### **Language:**

Ukrainian – native

Russian - native

English – B2

Hungarian - A2
